# Mecanum Knights

## About the Mecanum Knights

# YES

**FIRST Team 3667** represents both of Port Huron's high schools, but interested middle school students may apply to be junior team members.

The team, which began in 2011, operates out of its shop and engineering lab at the Harrison Center, and the newly dedicated BWARA Center, which was made possible thanks to generous donations from community sponsors.

During the six-week build season, mentors (that include engineers, programmers, graphic designers and parents) guide team members through the design and construction of a robot. The FIRST build season runs from the first Saturday in January through mid-February. District competitions are in March with state and world championships for eligible teams in April and May.

Our team motto is "Figure it Out" which represents the unique opportunities afforded to FIRST participants. Students on Team 3667 become familiar with the real-world applications of science and math as they "figure out" how to construct a robot to compete in each season's game.

During each season, students may choose to work in any of the following areas:

- Computer-aided design
- Metal working and welding
- Machining
- Electronics
- Computer programming
- Web site design
- Public relations and fundraising
- Business planning
- Anything else they may decide the team needs....

For more information on **FIRST Team 3667**, the **Mecanum Knights**, send an email to [coach@team3667.com](mailto:coach@team3667.com) or contact any of the individuals listed under team contacts.

**FIRST Robotics Team 3667,  
needs YOUR support.**

**FIRST Robotics Team 3667, the Mecanum Knights**, is a self-supporting extra-curricular activity of Port Huron Schools. The team's annual budget is nearly \$50,000 and includes the cost of materials, competition registration fees and travel. **Corporate and personal sponsorship is essential to our success.** Each student is required to raise \$100.00 as part of their commitment to the team. Balance of funds come from local sponsorship.
